

The New Malaysian Competition Law and its European Roots

5th APRIL 2011

**Venue: Dewan Kuliah 3,
Faculty of Economics and
Administration
University of Malaya**

**by
Julian Nowag**

Abstract: The presentation examines the new Malaysian Competition Law in the light of its roots in European competition law. The presentation focuses on two main areas. The first part outlines the theoretical underpinnings of the Competition Law and discusses its practical advantages. It also sheds light on some special features that are inherent in the EU model of competition law as deriving from a Treaty at supranational level. The second part of the presentation highlights various aspects in the development of prohibition of anticompetitive agreements and the abuse of which are linked with the EU model of competition Law and should therefore not be systematically transferred to other regimes without careful evaluation. As a wrap up, best practices lending themselves to universal application will be identified.

THE PROGRAMME:

- 3.00 pm Registration of participants
- 3.15 pm Lecture entitled "The New Malaysian Competition Law and its European Roots" by Julian Nowag
- Q & A Session
- 4.30 pm End of Session
